

# Nabeel Faheem

## Senior MERN Stack Software Engineer

Lahore, Pakistan | +92-3044621135 | [nabeelfaheem99@gmail.com](mailto:nabeelfaheem99@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience designing and delivering scalable full-stack applications using the MERN stack. Expertise in system reliability, performance optimization, and building high-quality user experiences. Proven ability to lead features end-to-end and collaborate across teams.

### CORE COMPETENCIES

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI

Backend: Node.js, Express.js, NestJS, GraphQL, RESTful APIs

Databases: SQL, MongoDB, PostgreSQL, MySQL, Redis

Tools: TypeScript, Git, REST APIs, Prisma, Sequelize, TypeORM, GraphQL, Github Copilot, Cursor (AI-assisted development), Claude Code (Anthropic), OpenAI GPT APIs, Prompt Engineering, OpenClaw

### PROFESSIONAL EXPERIENCE

**Studio Shoku (USA)** – Senior Software Engineer (Present)

- Led development of scalable web applications, solving performance bottlenecks in API-heavy workflows and improving response times.
- Designed backend architecture ensuring system reliability and maintainability.
- Collaborated with the product team to translate ambiguous requirements into technical solutions, reducing delivery time.
- Built full-stack features for client applications, addressing performance issues and improving load times.
- Identified and refactored inefficient components, reducing unnecessary re-renders and improving UI responsiveness.
- Used Claude Code, Cursor and Copilot for AI assisted coding for improved workflow and time management

### **InvoZone** – MERN Stack Developer (Oct 2022 – Jun 2024)

- Contributed to scalable SaaS products, solving integration challenges with third-party APIs.
- Improved code quality by enforcing best practices and modular architecture.
- Debugged and resolved production issues, ensuring system stability.

### **DevTree** – MERN Stack Developer (Oct 2020 – Oct 2022)

- Built backend services and APIs for data-heavy applications.
- Designed scalable data models to support evolving product requirements.

### **WP Minds** – Front-End Developer (Nov 2018 – Oct 2020)

- Developed responsive UI components for client projects.
- Solved cross-browser compatibility issues to ensure consistent user experience.
- Collaborated with designers to implement pixel-perfect interfaces.

## **KEY PROJECTS**

- Amplify – Inventory system admin panel (React, Node.js, GraphQL)
- Ewana – Rental marketplace (Next.js)
- Owing – Healthcare platform (Node.js, MySQL)
- Rollo – Events marketplace (Next.js, Node.js)
- SheetDB Clone – Automation app (React, Node.js)
- AAT – internal management portal for a K-12 classroom technology supplier, handling sales, procurement, inventory/warehouse, customer management, accounting, repairs, warranties, and product catalog operations (React, NestJS, PostgreSQL)

## **EDUCATION**

M.Sc (IT) – University of Education (2016–2018)

B.Sc Mathematics – Govt. Islamia College (2014–2016)

## **AWARDS**

Gold Medal – University of Education (2018)
